# TEXT MESSAGING FROM INSIDE ROCKET

MARKETING

DEBTS OWED

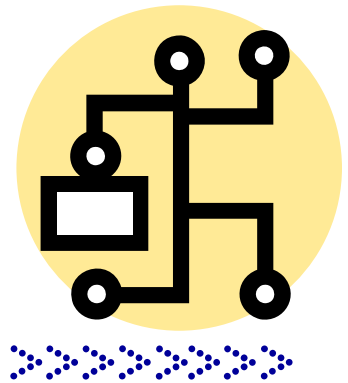

OVERDUES

## COST-EFFECTIVE, PERSONALISED, TO EACH OF YOUR CUSTOMERS.....

**ROCKETTXT** is a brand new web-based SMS sending system which, directly from inside **ROCKET**, enables you to make direct and personal contact with your customers. Text targeted customers or all of them in bulk; it takes just seconds. **ROCKETTXT** comes with powerful marketing features, advanced statistical options and an up to date and sophisticated delivery system.

Using **ROCKETTXT** is simple: create your **ROCKET** report, click on your **ROCKETTXT** internet link and you are ready to start sending! And, look at these features:

- **ROCKET Mobile Member Cleanup Routine** – scan your entire member base to find and manage any member marked with a mobile number.
- **Live Delivery Reports** – track individual messages from the time they are sent to the moment they are delivered.
- **Local Messaging Gateways** – be comfortable knowing that your messages are delivered securely via local messaging gateways. Our new messaging technology ensures that messages reach recipients faster than ever.
- **Multimedia Messaging Service** – enhance your mobile marketing campaigns with the power of graphics. Don't just tell them about a great movie release, show them!
- **Dynamic Reply Functionality** – increase efficiencies by receiving replies to your mobile or to your online SMS inbox.
- **Simple Email SMS Functionality** – send messages directly from Outlook or Outlook Express.
